Volunteering for the Future

-

Geospatial Excellence for a better living

Volunteering for the Future !

2 questions ...

➤ Why volunteering??

➤ Volunteering for the future of what ...??

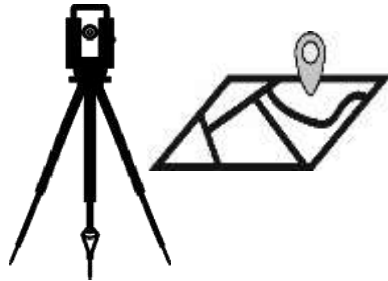

Volunteering for the Future

... of our Federation

is at the same time beneficial for our ...

Profession

Society

Planet

How to volunteer?

- To **promote** FIG in our professional environment
- To **participate** in FIG Working Weeks and Congresses
- To **encourage** and **motivate** others to participate in FIG events and activities.
- To **contribute** actively to our events
- To **participate** actively in the work of our Commissions, Working Groups, Networks, and Task Forces.
- To **assume responsibility** as the Officer of a Commission, Network or Task Force.
- To **support** the next generation of FIG members

Changes in our profession → yesterday <> today

2020

1990 and before

Spatial data

Geo data is a public good with a significant economical value!

and our

Geo data with restricted access!

intentionally raised!!

surveyor

important for the infrastructure of the entire society

„main customers“
state administration / military

Changes in our profession → yesterday <> today

COVID 19

Our Society 2019

- ~~Increased mobility~~
- Globalized world
- *CONNECTED* and *ONLINE*
~~always and everywhere !!~~

Sunday 31 March 2019

Sunday 29 March 2020

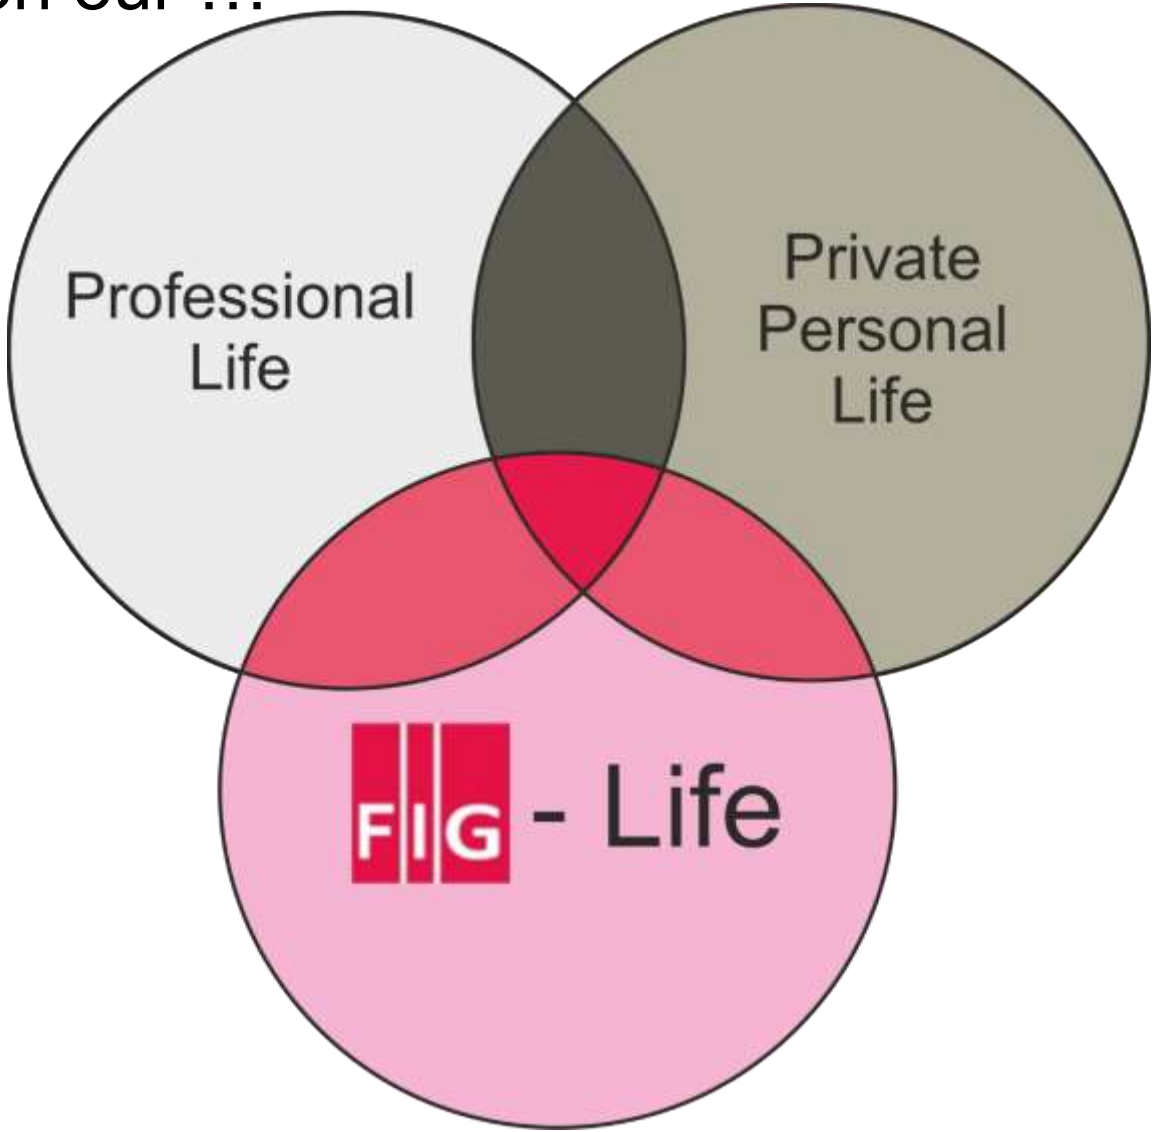

Number of airborne flights in ECAC : 2928

11:26:03

Number of airborne flights in ECAC : 341

The impact of COVID on our ...

In rough seas the Officers need to be on the bridge!

Prevent the ship from capsizing or even sinking!

Only small changes in the course of the ship!

Radical manoeuvres are dangerous!!!

The challenges for FIG-Council over the last 30 months!

Working Week 2020 → cancelled → 26 articles offline

Working Week 2021 → E-Working Week 2021

Hugh success

Congress 2022

- Short preparation time for LOC
- Ukraine is a direct neighbour to Poland

Ukraine

24th February: Russian military forces invaded Ukraine and this war is still ongoing

1st March: FIG-Council published a statement disapproving this hostile act and requesting the Russian government to stop this immediately!

However we did not expel our 5 Russian members (2 MA, 1 AF, 2 AC)

The FIG Statutes are very clear

2.2 *The Federation shall **abstain** from any interference in questions of a political, racial or religious nature.*

2.3 *The Federation shall **not permit** any of its activities **to be influenced** by statements or actions of a political, social or religious nature.*

FIG is also member of ISC = International Science Council

Ukraine

Due to the special situation / location of the hosting country Poland FIG Council decided

1. FIG-Council declared that Russian delegates and participants are **not welcome** at the Congress 2022 in Warsaw (Poland)
2. We did **not accept** registrations from Russia
3. We **rejected** Russian abstracts for presentation (they arrived before the 24th Feb)

Ukraine

- Before the 24th of February we discussed about **COVID19** and how it will affect our Congress ?
- After the 24th of February we discussed in addition ... **Ukraine**

At this point I want to say a big **thank you** to our local organizers from Poland ...

*because there were never doubts
whether to stop the organisation of this Congress or not!!*

*Thank you **Barbara, Milka, Krystof, Janusz** and all the other helpers
which are not so visible for us Internationals !!*

COVID19 is not over, but

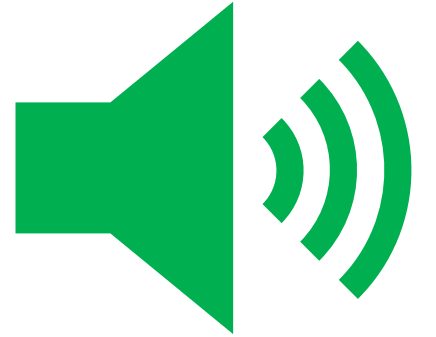

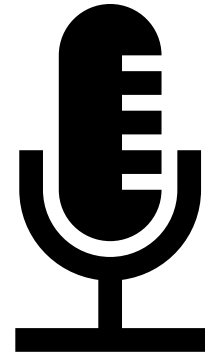

We learned to live with it

In 2021 FIG could reduce the fee for MAs by 20%

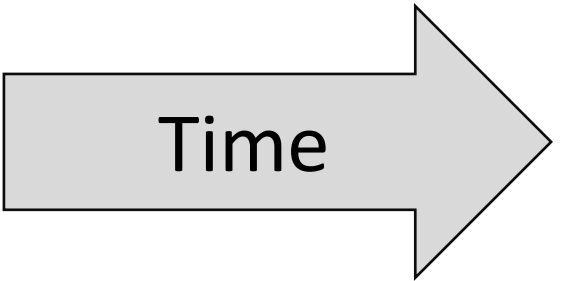

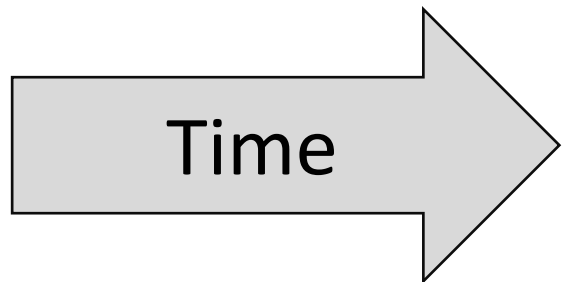

Video Conferencing

The Carbon Foot Print

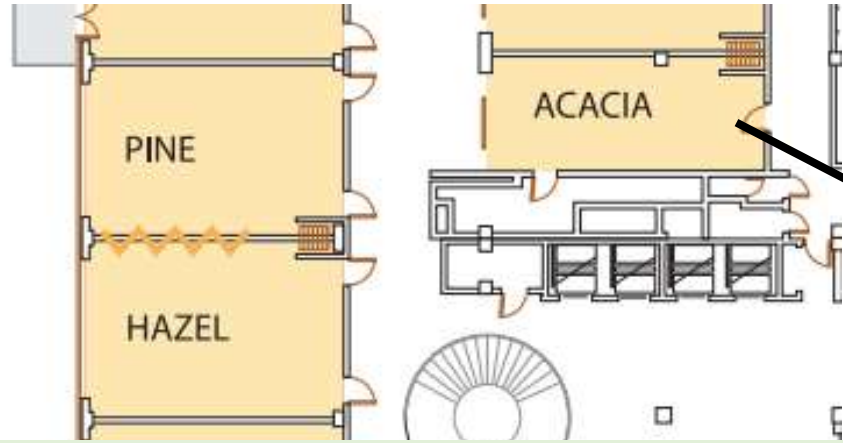

2019

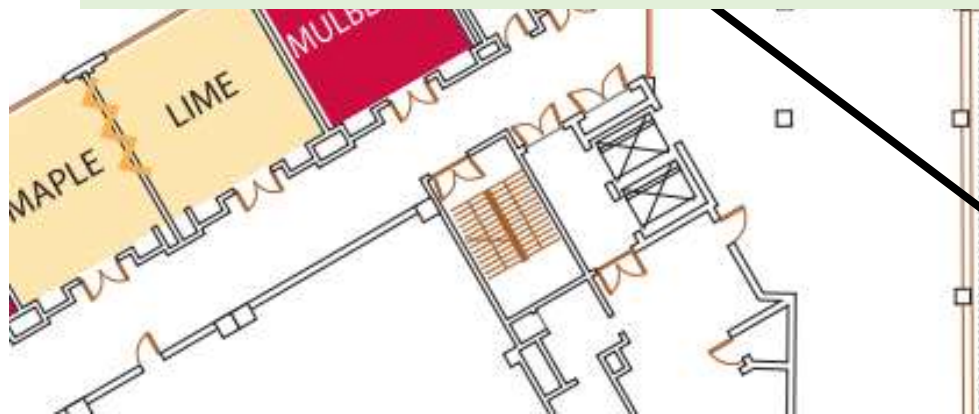

2022

Let us look forward to the **FIG** Congress 2022

At the End of the Week you will also be an expert in determining Trees and plants!
